DIVISION OF OLSON INDUSTRIES

DECI Corporation maintains a wide range of resources and flexibility to meet each individual Client's needs, whether it is a plant expansion, in-plant engineering, or a green field site project. **DECI** will provide a single point resource to meet any project need from conceptual definition and design through detailed engineering, procurement and start-up. This single source resource will enhance the project's communication and coordination, expedite the project's completion and reduce the demands on Client personnel.

DIVISION OF OLSON INDUSTRIES

Electrical / Instrumentation

- Design Calculations
- Area Classifications
- One Line Diagrams
- Power Distribution Plans
- Lighting Plans
- Grounding Plans
- Electric Heat Tracing
- Heat, Smoke & Fire Detection
- Security Systems (CCTV)
- Panel Schedules
- MCC Details
- Schematic Wiring Diagrams
- P&I Diagrams
- Logic Diagrams
- Ladder Diagrams
- Control Loops
- Distributed Control Systems
- PC System Design
- Panel Arrangements, Wiring or Tubing
- Panel Semigraphics
- Instrument Specifications & Requisitions
- Instrument Lists
- Material List/Bills of Material

DIVISION OF OLSON INDUSTRIES

Civil / Structural (Industrial Plants)

- New Design or Modification of:
 - Buildings
 - Pipe & Tray supports
 - Equipment supports
 - Stack foundations
 - Crane supports
- Structural Steel Calculations
- Foundation Calculations
- Structural & Foundation Design Drawings:
 - Plans, Section & Details
 - AutoCAD & MicroStation
- Steel & Concrete Specifications
- Construction Estimates for Bid Purposes
- Approving Structural Steel Shop Drawings
- Checking New & Existing Calculations generated by others
